INNOVATION CHALLENGE

we are excited to invite you to participate in the upcoming Padma Bhushan Dr. Amarjit Singh innovation challenge! This is an opportunity for you to showcase your creativity, teamwork, and problem-solving skills and to be part of a community of young innovators passionate about positively impacting the world.

The innovation challenge is open to all students from class IX to XII of CVM. regardless of their background or experience. We welcome all innovative ideas addressing real-world challenges in rural or urban living, from environmental sustainability to social justice and technological advancements.

To participate, form a team of 2 to 4 students and submit your idea through our online platform with a 500 words write-up . You will have the opportunity to receive feedback from mentors and experts in the field and refine and develop your idea before the final submission. Additionally. selected teams will receive resources and money to develop and implement their idea in their community.
